TQ-Systems: System Services / EEMS (Electronic Engineering and Manufacturing Services)

We are one of the leading technology service providers and system vendors in the Bavarian area (southern Germany).

We offer extensive service for the complete range of electronic subsystems and systems - from the initial idea to the final product.

Our range of competence contains the fields: development, layout, logistics, production, assembly, testing and service. Our demand on quality and performance is the base for customer satisfaction - worldwide.
